

AYOTUNDE ALEEM

QA / Automation Test Engineer

Lagos, Nigeria • ayotunde.aleem@gmail.com • +234 905 693 5736 • ayotundetrex.github.io • linkedin.com/in/ayotundetrex

PROFESSIONAL SUMMARY

QA Engineer with experience in manual testing, regression testing, and API testing for web and enterprise applications. Skilled in creating test cases from business requirements, identifying and tracking defects, and validating system functionality using tools such as Postman and Scandium. Experienced working in Agile teams and collaborating with developers, product managers, and other stakeholders. Currently expanding my skills in test automation and application security testing.

CORE SKILLS

Testing & QA: Automation and Manual Testing, Functional Testing, Regression Testing, UI Testing, API Testing, Smoke Testing, Test Case Creation, Defect Tracking, STLC/SDLC, Agile/Scrum

Tools: Postman, Scandium, Jira, Git, Browser Developer Tools

Technical Skills: HTML, CSS, JavaScript (basic), Python (basic), SQL (basic)

Security Knowledge: Familiar with OWASP Top 10 and common web vulnerabilities such as SQL Injection, Cross-Site Scripting (XSS), and authentication issues

Soft Skills: Problem Solving, Attention to Detail, Communication, Documentation, and Collaboration with cross-functional teams

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer | TM30 Global Limited — Lagos 2025 – Present

- Perform manual and automated testing on enterprise web applications, designing test cases directly from functional requirement documents (FRDs).
- Execute end-to-end testing across client management, messaging, billing, and authentication modules for a live legal-tech product.
- Conduct API testing with to validate request/response behaviour, authentication, and data integrity.
- Identify, document, and track defects (validation, functional, and UI issues) through resolution and retesting.
- Use Scandium for automation learning and execution, building toward full automation ownership.
- Collaborate directly with developers and product managers to clarify requirements and improve release quality.

Quality Assurance Tester (Remote) | Silveredge Tech / ENL NOVA Limited (Hybrid) 2022 – 2025

- Designed and executed test cases for web and mobile applications while completing a Computer Science degree.
- Performed functional, regression, and usability testing; verified bug fixes before production releases.
- Documented and tracked defects, working with distributed development teams to confirm resolution.
- Contributed to testing of a dynamic e-commerce platform and the Lagos State EPPPS government platform.

EDUCATION

B.Sc. Computer Science, Second Class Honours (Upper Division) 2021 – 2025

Ahmadu Bello University, Zaria, Nigeria

Software Development Training — Moat Academy for Developers (Jan – Apr 2022)

CERTIFICATIONS

- Specialized Training in Software Test Automation — Scandium Systems Inc. (April 2026)
